

South Stanley Infant School Council

Monday 26th January 2015

The official opening of our new playground equipment!

Our special guest, Spiderman, made a dashing entrance into our school playground today to help celebrate the official opening of our new Key Stage One play equipment. He swept in, dangled from our new trapeze rings, and cut the huge red ribbon in style! All the children cheered when they saw him!

The lucky School Council members, who had been so involved in the design of our equipment and organising our celebration, were able to meet Spiderman and pose for photos with our hero. As the rest of the school toasted the success of our event with lemonade, the School Council showed off the new climbing equipment and slide to the local newspaper photographer.

We were glad to share the event with children from Year 3 at South Stanley Junior School, many of whom were past pupils, and had been involved in the Healthy Heights Project.

Use the link below to see our school in the news!
